

Theracare Mobile Recliner Chair

The Theracare Mobile is a fully functioning Recliner Chair using either a Dual Motor (action c) or a Single Motor Tilt in Space (action a) mechanism. If specified with a dual motor T.I.S mechanism the Theracare Mobile can also be supplied with a riser function, the footrest used in this option would be a fold down instead of the standard slide out. It is supplied with large locking castors and with a wooden push handle and slide out footrest as standard. The Theracare Mobile, as its name suggests, can be easily moved between rooms with the occupant in the chair, making this a very versatile and comfortable home mobility chair.

If specified with the built in Battery Backup, there is no need to plug the chair in when moving between rooms.

We provide a free of charge assessment of your needs, wishes and risks in your own home, with absolutely no obligation to purchase. To give you peace of mind, we are members of the BHTA and conform to their Office of Fair Trading approved Code of Practice, which includes standards of behaviour and ethical guidelines for member staff operating in client's homes.

All chairs have a 5 year warranty on all actuators and electronics other than the hand control. Hand controls upholstery and mechanisms have a 2 year warranty.

Hand Control

The Dual Motor Chair Riser Recliner has 4 buttons allowing you to move the back rest forwards or backwards and the leg rest up or down. Once the leg rest is all of the way down, the chair will then rise to help you achieve a standing transfer. Our hand controls are the best you can get. We believe that cutting corners to save a few pounds can result in reliability issues.

Sizes Available

Action of Chair	Capacity	Width	Height	Depth	Back Height
