

Orbit™

Orbit Rotating Bed
Range

Expertise, understanding and **trusted since 1981**

“ My Orbit has made such a massive difference to my life – I can now get in and out of bed with just one button ”

Patrica Fothergill, Oxfordshire

Theraposture Ltd is a privately owned, family run business and were the very first provider of Rotating Beds over 25 years ago. Since then, we have become the market leading specialist and have developed our range based on our experience and understanding, resulting in the groundbreaking new Orbit range of Rotating Beds.

We are a long-standing member of the British Healthcare Trades Association and adhere to its Code of Practice which has been granted approval by the Chartered Trading Standards Institute.

We work closely with both Parkinson's UK and the MS Society as Trusted Partners, donating to the relevant charity for each sale of a Theraposture product, and providing special advantages to the purchaser.

All Orbit beds have been independently tested to ensure full compliance with BSEN60601-2-52 (BS EN IEC 80601-2-52:2026).

Orbit moves

Orbit[®] 235

The most advanced, versatile, and adaptable Rotating Bed in the world

The unrivalled scope of personalisation means that the Orbit 235 is fitted to you using electronic programming and mechanical adjustment, regardless of your height, weight, or body shape. There is no other Rotating Bed like it.

The Orbit 235 is a revolution and huge step forward in Rotating Beds. The Orbit 235 has been developed in collaboration with Occupational Therapists and end users, building on Theraposture's understanding and experience gained as the true market leading supplier of Rotating Beds for over 25 years.

Everything that we have learnt and everything that we have been asked for has resulted in the Orbit 235.

about all the benefits

The finished chair position can be pre-set to either a 90-degree or 60-degree position which creates extra space for transfers in tight spaces and for wheelchairs

Main advantages and benefits:

- Suitable for those from 4'10" to 6'6" weighing up to 31 stones (200kg)
- 90cm wide x 200cm, 210cm or 220cm long
- Personalised seat height and depth settings to ensure you are properly supported
- Choice of seat position (90 degrees or 60 degrees)
- Get in and out of bed safely and on your own terms
- Free assessment in your own home
- Height adjustable and profiling with integrated rising heel section

Orbit® 235X Divan

The same Orbit, but with a different look

The Orbit 235X is the divan version of the most advanced, versatile and adaptable Rotating Bed in the world.

The unrivalled scope of personalisation means that the Orbit is fitted to you using electronic programming and mechanical adjustment, regardless of your height, weight, or body shape. There is no other Rotating Bed like it. You can choose the fabric, the head and foot board design so that the Orbit 235X looks at home in your home.

Main advantages and benefits:

- Made to look at home in your home
- 90cm wide x 200cm, 210cm or 220cm long
- Save approximately £27,000 each year in home care costs
- Get in and out of bed safely and on your own terms
- Free assessment in your own home
- Fully adjustable to each person's body shape
- Height adjustable
- Fully profiling with integrated rising heel section

Orbit® 235X Combination Double

Couples can continue to share a bed together

Orbit Combination beds allow couples to remain together in the same bed when their needs are different. There are separate mattresses and controls for each half of the bed.

Combinations can be made so that they are separable to allow carer access to both sides of either half. This is an important consideration for those with progressive conditions such as MS and Parkinson's.

Combination beds can be made to look at home in your own home with a choice of materials and finishes and sizes.

Main advantages and benefits:

- Designed for couples with different needs so they can remain together
- Made to look at home in your home
- Any combination of functions/sizes
- Independently tested to ensure full compliance with BSEN60601-2-52 (BS EN IEC 80601-2-52:2026)
- Mattresses, sheets, and a battery backup, all included in the price
- Free assessment in your own home

Integrated rising heel section is standard on all Orbit beds – for totally supported elevated legs

The hand controller is easy to understand and can be fitted to either side of the Orbit, depending on the chosen direction of rotation

Orbit® 335HD

The most capable Rotating Bed in the world

Scan to see and hear
about all the benefits

The 110cm wide Orbit 335HD is the “plus size” version of the most capable, advanced, versatile and adaptable Rotating Bed in the world.

The unrivalled scope of personalisation means that the Orbit is fitted to you using electronic programming and mechanical adjustment, regardless of your height, weight, or body shape. There is no other Rotating Bed like it.

The Orbit 335HD is suitable for users weighing up to 300kg (47 stones) and it has been tested to reliably lift 670kg (105 stones). Bed transfers for larger users can be risky, complicated and may involve several care givers. The Orbit 335HD will help larger users to get into, and out of bed independently, or with much less assistance.

The Orbit 335HD can be set up to meet each user's personal needs. No other bed has the same level of ability or personalisation.

Easy to reach retractable
handlebar grips

Main advantages and benefits:

- Fully adjustable to each person's body shape
- Deeper seat options for Plus Size clients
- Potential for significant care cost savings
- Height adjustable providing a compliant safe working height
- Fully profiling with integrated rising heel section
- Independently tested to ensure full compliance with BSEN60601-2-52 (BS EN IEC 80601-2-52:2026)
- The extra width can be enjoyed by all clients regardless of body shape

Mattresses and Accessories

RWI4 mattress

Suitable for users at low to medium risk of developing bed sores. Castellated Reflex foam mattress.

RWI7 (standard) mattress

Suitable for users at medium to high risk of developing bed sores. Triple layer Memory foam mattress available in soft, medium, and firm.

RW24 mattress

Suitable for users at high to very high risk of developing bed sores. Triple layer Memory foam mattress available in soft, medium, and firm.

RO-HO dry flotation

Suitable for users managing existing bed sores or those at extreme risk of developing them. This Neoprene mattress is a zoned, silent, and low Maintenance advanced high-performance surface.

All mattresses come with a wipe down cover and are interchangeable.

Mattress retention system – the mattress is firmly held to the moving platform

Two sets of sheets with sewn-in pillowcase are supplied as standard. Extra sheets and different colours are available

A battery backup is provided with every rotating bed from Theraposture. This is to ensure that should your mains power fail, you can continue to get in and out of bed

Handle bar grips for wider beds

Lifting pole

Extra grab handles are available with a unique anti-crushing mechanism that prevents the rails coming together

How to rent or buy an Orbit

Risk free and cost free with no obligation

After a detailed initial discussion with an experienced product advisor, we will arrange an assessment that includes bringing the appropriate Orbit Rotating Bed to your home for you to try. This covers both Orbit beds for one person and Orbit beds within a combination for couples to share.

The process for purchases or rentals of either new or refurbished beds is the same – we just need to know your intention and preference as we give you the opportunity to keep the bed following the assessment.

No deposit is needed. We will bring an Orbit Rotating Bed (you choose new or refurbished) to your home for you to try. As part of the process,

our technicians configure the Orbit bed to your personal settings and preferences, and we help assess its suitability for you.

If it is looking like a good solution and you decide to keep it, you can pay for the bed and take ownership or start the rental. We can take away existing beds for either disposal or storage during the two week returns period.

“ I do not worry about getting into bed anymore. There is nothing else that you could do to improve this bed – it is a wonderful design ”

D Hill, North London

We deliver and install Orbit beds with our own staff to any room in your house.

If the assessment concludes that the Orbit isn't suited to you, then we take it out, put everything back as it was – there is nothing to refund and no cost to you at all. This is a one stage process and will typically take about 2 weeks. We are effectively combining the assessment with the installation, so two processes are all done during one visit which allows us not to charge any delivery cost.

This is risk free and the best way to try an Orbit Rotating Bed.

(For Scotland, we work with our exclusive distributor W Munro Rehab (0141 952 2323) and in Ireland and Northern Ireland, we are represented by Homecare Medical (Local: 0818 911 555)
